CONCLAVE ON AI IN EDUCATION

INDIA HABITAT CENTRE, NEW DELHI

May 27 & 28, 2025

www.cprgindia.org

ABOUT CPRG

The Center of Policy Research and Governance (CPRG) is a policy research think tank that aims to promote responsive and participatory policy-making. As an Indian Council of Social Science Research (ICSSR)-recognised institution, it has established itself as a leading voice in technology policy through its ‘Future of Society’ initiative. This initiative explores emerging technologies’ societal impact, anticipates rapid shifts and constructs forward-looking policy agendas.

EVENT OVERVIEW

The Conclave is an important dialogue to discuss critical issues around AI in the Indian education system. षडAI is an effort to bring together policy-makers, academic thought leaders, domain experts and education entrepreneurs to examine the transformative role of AI in learning and workforce development in India.

Through dialogue, this platform will explore how AI and emerging technologies are engaging with diverse aspects of traditional education models — across schools, universities, and the broader higher education landscape — creating a new approach of education and workforce development. The Conclave will facilitate innovative AI-driven solutions that enhance pedagogy and promote an adaptive, inclusive and future-ready education system.
